“Japanese Encephalitis Virus - an update for Australian clinicians”

Sydney ID together with the Australasian Society of Infectious Diseases (ASID) and Australian and New Zealand Association of Neurologists (ANZAN), is delighted to welcome Professor Tom Solomon who will present a talk entitled “30 years working on Japanese encephalitis”. Professor Solomon is a global authority on JEV and will draw on his own experience working in Vietnam and that of his networks to critically evaluate the status of our understanding of JEV disease.

17th International Child Neurology Congress in Antalya, Turkey

3rd – 7th October 2022

ICNC2022 abstract deadline is fast approaching on **April 1st, 2022 at 23:59 (GMT)**.

We have 4 state-of-the-art keynote talks, 4 senior and young investigator award lectures, 16 parallel symposia, 13 morning symposia, 3 master classes, 3 workshops, and EPNS, Global Burden of Disease, International Child Neurology Training Network and Screen time symposia. There are a number of new innovations including our six 'Controversies in Child Neurology debates', and our Research Methodology workshop with small break out working groups. We will also be showing a Lily Dubowitz documentary on the development of the Dubowitz scale. There is a rich cultural program including music (including a live jazz concert), a children's science art exhibit, Turkish folk dance and a final “Golden Synapse” soccer match, etc.

There is a 6-minute promotional video of the Scientific Program at <https://icnapedia.org/icnc2022-program>

Early bird registration ends 15th June 2022.
